Building bridges through service

On 23 February, Rotary will celebrate its 105th anniversary. On that day, we also mark World Understanding and Peace Day, for in Rotary, part of our mission is working for peace – not through military might, but through our humanitarian work. Rotarians understand very well that the causes of war and strife are often the same: poverty, inequality, deprivation, and a lack of hope.

Rotary works to restore that hope by bringing health, education, and the promise of a better future. We do this through the locally based club and district projects for which we are known, and through larger projects run internationally and with the support of our Rotary Foundation – projects that support schools, build wells, improve quality of life, and bring us ever closer to our goal of a polio-free world.

The years that we have been working together through PolioPlus have been years of steady determination, of lessons learned, of confidence built. Where government representatives and health organizations have been refused entry, Rotary has been allowed in, because our local service and our international reputation have earned us the trust of others. Through our work, we have helped build bridges of cooperation between governments and communities. With every one of those bridges, and with every drop of polio vaccine, we come closer to the better, healthier, and more peaceful world that we know is possible to build.

ROTARY KNOWLEDGE

Benevolent Bennett says: The answer will be by each individual Rotarian. Please, no sharing of the answer with others. Our goal is to have every Rotarian answer the question correctly by reading the "ROTARIAN". You are on your honor. Please, don't let us down!!!

THIS WEEK'S QUESTION : According to the December issue of the **ROTARIAN**, at what university did Paul Harris attend and receive his law degree?

NEXT WEEK'S QUESTION : According to the February issue of the **ROTARIAN**, in "Operation Warm" Sanford used his own money to buy 58 coats. Since then Operation Warm has provided more than ----- new coats to children in 26 states. Fill in the blank.

Jun 20-23 RI Convention Montreal
Dec. 4 Craft Fair

Catch the Ball - District Conference 2010

The conference will be held from May 14 to 16, 2010 at the Radisson Hotel and Convention Center in Green Bay and promises to offer something for every Rotarian and their significant others.

Fun & Festivities

On Friday afternoon, Rotarians can enjoy a private tour of historic Lambeau Field, home to the National Football League's Green Bay Packers, and the Packers Hall of Fame. You'll get an inside look at the home of a champion as you explore everything from the field to the luxury boxes. At the Hall of Fame you'll learn the history behind one of the most successful professional sports franchises in history - complete with three Lombardi trophies.

On Saturday night, Rotarians will experience a different side of Lambeau Field as the lights will shine brightly for a semi-formal dinner and dance. The Rotary Ball will be the perfect evening to celebrate the achievements of Rotarians in our district and to meet fellow Rotarians as we dance the night away inside the Ballroom at Lambeau Field.

Educational Programs

In between, Rotarians will be treated to a number of speakers, programs and presentations. Speakers include members of the Green Bay Packers, Oneida Nation, and "That Nurse Guy" Jon Shier who will explain how to "Live Long, Die Healthy."

Programs will address a number of topics close to the hearts of Rotarians, including fundraising events, new (younger) member recruitment, and how to provide food and nutrition for hungry families in our communities and around the world.

Costs

\$99 hotel rooms at the Radisson include a complimentary breakfast, as well as shuttle service from the hotel to events at Lambeau Field.

There's only one way to guarantee you don't miss out on the fun, elegance and affordability of the 2010 Rotary District 6270 Conference - register today and we'll see you in Green Bay in May of 2010!

Don't miss Cirque du Soleil and Les Misérables

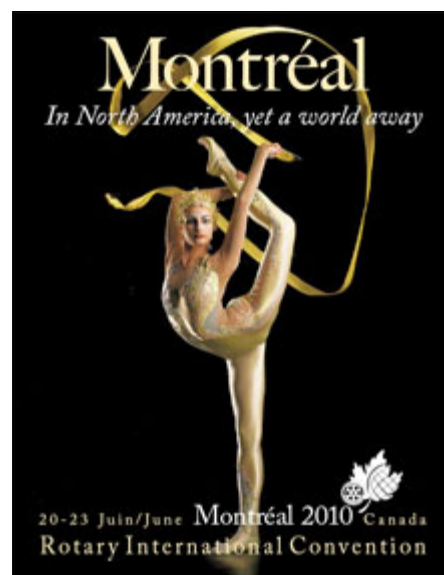

A performance by the world-famous Cirque du Soleil and an award-winning musical adaptation of *Les Misérables* are just two of the entertainment opportunities you won't want to miss during the 2010 RI Convention in Montréal, Québec, Canada, 20-23 June.

Cirque du Soleil will perform a program designed specifically for Rotary International during the closing plenary session of the convention on Wednesday, 23 June.

..
In addition, through a Host Organization Committee (HOC) event on Saturday, 19 June, convention goers will have the opportunity to marvel at the remarkable talent of rising young circus artists by attending the graduation performance of the École nationale de cirque (National Circus School).

A pioneer of the circus renaissance, the school has contributed to the emergence of several circus companies, including Cirque du Soleil..

A block of tickets has been set aside for Rotarians for a 19 June performance of *Les Misérables*, Alain Boublil and Claude-Michel Schönberg's award-winning musical adaptation of the classic Victor Hugo novel. This French-language production of "Les Miz," as it's fondly known around the world, will be the centerpiece of Les FrancoFolies de Montréal, one of the world's premier French-language music festivals, which will bring nearly a million music lovers to Montréal for over 200 concerts in several indoor and outdoor venues from 9 to 19 June.

FROM THE BOARD

INTERNATIONAL SERVICE DIRECTOR'S REPORT

The World Affairs Seminar, an initiative of Rotary District 6270, has been a strong force in the lives of international youth for over 30 years. During that time, over 20,000 future world leaders ages 16 to 18 have been exposed to the ideas of international thinkers and have had the opportunity to participate in challenging intellectual exercises. These students make lasting friendships with people their own age from other countries and take with them enhanced interpersonal and leadership skills.

Last summer's World Affairs Seminar was a resounding success! In 2010, our seminar focus is the "Global Fresh Water Challenge." Water scarcity and the availability of clean fresh water is one of the greatest threats to global security and human health. We expect over 500 students from around the world to join us at Carroll University in Waukesha, Wisconsin, June 26 through July 2, 2010. For more information, please visit our website: www.worldaffairsseminar.org

Application forms have been sent to the school liaisons with a poster to share with the schools.

2010 WORLD AFFAIRS SEMINAR

June 26—July 2

Water scarcity is one of the greatest threats to global security and human health and interconnects with many other contemporary global challenges. The key features of the 2010 seminar will include:

Exploring cutting-edge topics in the areas of globalization, climate change, emerging water technologies, water privatization, global security, and human rights.

Interacting with renowned experts.

Generating plans for action and collaboration to address water issues.

Debating and discussing controversial freshwater case studies.

Participating in a freshwater public policy simulation.

Touring local freshwater sites.

Southeastern Wisconsin is emerging as a global leader in freshwater innovation and research and Milwaukee was recently designated one of thirteen United Nations Global Compact Cities and the only one selected for freshwater management. The Greater Milwaukee Area is home to approximately 120 water industry businesses.
